# Notes to the financial statements

### Note 1. Financial statements preparation

The reporting entities included in these financial statements are the Westpac Term PIE Fund ('Term PIE Fund'), the Westpac Cash PIE Fund ('Cash PIE Fund') and the Westpac Notice Saver PIE Fund ('Notice Saver PIE Fund') (collectively referred to throughout these financial statements as the 'Funds').

The Term PIE Fund was created and established on 20 July 2009 under the Westpac Banking Funds Trust Deed dated 20 July 2009, as amended (the 'Trust Deed'). The Term PIE Fund commenced operations on 20 July 2009.

The Cash PIE Fund was created and established on 14 November 2012 under the Trust Deed. The Cash PIE Fund is made up of two product offerings, the Online Saver PIE ('Online Saver') and the Online Bonus Saver PIE ('Westpac Bonus Saver'). The Cash PIE Fund commenced operations on 22 November 2012.

The Notice Saver PIE Fund was created and established on 1 December 2014 under the Trust Deed. The Notice Saver PIE Fund commenced operations on 1 December 2014.

The Trust Deed is executed by BT Funds Management (NZ) Limited (the 'Manager') and Trustees Executors Limited (the 'Trustee').

The objectives of the Funds are to provide investors with tax-effective, fixed term, on-call or short-term notice cash investments.

The Funds' investment activities are ultimately managed by the Manager. The registered office of the Manager is Westpac on Takutai Square, 16 Takutai Square, Auckland. The Funds are domiciled in New Zealand.

The financial statements were authorised for issue by the Directors of the Manager on 1 July 2020. The Directors of the Manager have the power to amend the financial statements after they are authorised.

The principal accounting policies adopted in the preparation of these financial statements are set out below and in the relevant notes to the financial statements.

#### a. Basis of preparation

#### (i) Basis of accounting

These financial statements have been prepared in accordance with the requirements of the Trust Deed.

These financial statements comply with Generally Accepted Accounting Practice in New Zealand, applicable New Zealand equivalents to International Financial Reporting Standards ('NZ IFRS') and other authoritative pronouncements of the External Reporting Board, as appropriate for for-profit entities. These financial statements also comply with International Financial Reporting Standards ('IFRS'), as issued by the International Accounting Standards Board ('IASB').

All amounts in these financial statements have been rounded in thousands of New Zealand dollars unless otherwise stated.

#### (ii) Accounting conventions

The financial statements have been prepared under the historical cost convention. The going concern concept and accrual basis of accounting have been applied.

The World Health Organisation declared the coronavirus ('COVID-19') to be a global pandemic on 11 March 2020 and the outbreak has spread across many countries, causing significant disruption to business and economic activity. COVID-19 has been considered in the preparation of the Funds' financial statements. On the basis that the Funds' financial assets primarily comprise cash and term deposits, which have not been and are unlikely to be subject to financial market volatility or significant credit risk, it has been concluded that COVID-19 has no material impact to these financial statements. The Funds continue to have no areas of critical accounting judgements or estimates.

All policies have been applied on a basis consistent with that used in the financial year ended 31 March 2019.

#### b. Significant accounting policies

### Financial assets and financial liabilities

#### (i) Recognition

The Funds' financial assets are recognised on settlement date when cash is advanced to the borrowers.

Financial liabilities at amortised cost are recognised when an obligation arises.

# (ii) Classification and measurement

The Funds' financial assets are classified based on the Funds' business model for managing those financial assets and the contractual cash flow characteristics.

All of the Funds' financial assets are classified as financial assets at amortised cost.

Financial assets at amortised cost are initially recognised at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method, reduced by any impairment allowance for expected credit losses.

The Funds' financial liabilities are classified as financial liabilities at amortised cost.

Financial liabilities are initially recognised at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method.

### (iii) Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or where the funds have transferred substantially all the risks and rewards of ownership.

Financial liabilities are derecognised when the obligation is discharged, cancelled or expires.

# Notes to the financial statements

# Note 1. Financial statements preparation (continued)

#### Other liabilities

Other liabilities include accrued interest payable to unit holders.

#### Non-financial liabilities

#### Tax payable on behalf of unit holders

Tax payable on behalf of unit holders includes monies held by the Funds to pay PIE tax to the Inland Revenue on behalf of the unit holders.

#### Taxation

#### Income tax

Each Fund qualifies as, and has elected to be, a Portfolio Investment Entity ('PIE') for tax purposes. Under the PIE regime, income is effectively taxed in the hands of unit holders and therefore the Funds have no income tax expense. Accordingly, no income tax expense is recognised in the statement of comprehensive income.

Under the PIE regime, the Manager attributes the taxable income of the Funds to unit holders in accordance with the proportion of their interests in the overall Funds. The income attributed to each unitholder is taxed at that unitholder's Prescribed Investor Rate up to 28% on redemptions, distributions and annually at 31 March each year. The Manager may also make distributions on other dates where necessary or desirable to enable compliance with the PIE tax regime.

In accordance with the Trust Deed, the Manager has discretion to determine the assessable income (for tax purposes) of the Funds and to allocate this income in accordance with the NZ Income Tax Act 2007.

Tax payable on behalf of unit holders, disclosed in the balance sheet, consists of amounts withheld from withdrawals or distributions to meet unitholder tax liabilities under the PIE regime.

#### Goods and services tax ('GST')

The Funds are not registered for GST. The statements of comprehensive income and statements of cash flows have been prepared so that all components are stated inclusive of GST (if any). All items in the balance sheets are stated inclusive of GST (if any).

#### Note 2. Net assets attributable to unit holders

#### Accounting policy

Unit holders' funds

The Funds issue units that are redeemable at the unit holders' option. The units do not meet the equity exemption requirements for a puttable financial instrument under NZ IAS 32 *Financial Instruments: Presentation* ('NZ IAS 32'), as the units are not the most subordinate class of instrument within the Funds due to management units being the most subordinate (refer to note 10). As such, they are classified as a financial liability and disclosed as Net assets attributable to unit holders on the balance sheets.

Redemptions from the Funds are recorded gross of any exit fees payable, after the cancellation of the units redeemed. Units are issued and redeemed at the unit holders' option at prices based on each Fund's net asset value per unit at the time of issue or redemption. Each Fund's net asset value per unit is calculated by dividing the net assets attributable to the unit holders of that Fund with the total number of outstanding units of that Fund.

For the Term PIE Fund, units are issued to unit holders at different rates of return and maturity dates. The units can be put back to the Fund after the maturity date for cash, based on the redemption price. In exceptional circumstances units may, at the Manager's discretion, be withdrawn early, i.e. before their maturity date. A reduced rate of return applies to any early withdrawal from the Fund and may also apply to any remaining unit holding.

For the Cash PIE Fund, there are no maturity dates and the units are redeemable on demand by the investors. The Online Saver and Online Bonus Saver products are issued at different rates of return.

For the Notice Saver PIE Fund, there are no maturity dates and units are redeemable on demand subject to investors giving a minimum withdrawal period of notice. However, in exceptional circumstances, units may, at the Manager's discretion, be withdrawn before the expiry of such notice period and a return reduction will be applied to the remaining unit holding.

As stated in the Trust Deed, each unit represents a right to an individual share in the relevant Fund and does not extend to a right in the underlying assets of the Fund.

There are no separate classes of units for PIE tax purposes within the Funds and, other than differing maturity periods, distributions and agreed returns, each unit has the same rights attached to it as all other units in the Fund.

### Distributions to unit holders

Income is distributed either as units or cash.

Distributions of income are classified as interest expense and are paid to unit holders in the Term PIE Fund either monthly, quarterly, six monthly, annually or upon maturity date depending on the term of their investment and any election (where applicable) made at the time of investment. The distribution rates applied to individual unitholder's investments in the Term PIE Fund vary and are dependent on the term and size of their investment.

Distributions are paid to unit holders in the Cash PIE Fund on a monthly basis, on the last business day of each month, or upon full withdrawal. The distribution rates applied to individual unit holders in the Cash PIE Fund are based on which product they are invested in, and in respect of the Online Bonus Saver, whether they have met the conditions to receive a bonus rate of return on their investment.

Distributions are paid to unit holders in the Notice Saver PIE Fund on a monthly basis, on the last business day of each month, or upon full withdrawal. The distribution rates applied to individual unitholder's investments in the Notice Saver PIE Fund vary and are dependent on the minimum notice period for withdrawals and the size of the investment.

## Note 3. Related entities

### Accounting policy

#### Interest income

Interest income for all interest earning financial assets is recognised using the effective interest method. The effective interest method calculates the amortised cost of a financial instrument by discounting the financial instrument's estimated future cash receipts or payments to their present value and allocates the interest income or interest expense, including any fees, costs, premiums or discounts integral to the instrument, over its expected life.

### Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short-term and highly liquid used in the day-to-day management of the Funds that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. These investments are classified as financial assets at amortised cost.

#### Investments

The Term PIE Fund invests in New Zealand dollar, interest bearing accounts with Westpac New Zealand Limited ('WNZL'). These investments comprise deposits with a maturity of greater than 90 days at acquisition date and are subject to insignificant risk of changes in value. These investments are classified as financial assets at amortised cost.

### Receivables due from related entities

Receivables due from related entities includes monies held by Westpac New Zealand Limited to pay PIE tax to the Inland Revenue on behalf of the unit holders. These are classified as financial assets at amortised cost.

#### Ultimate holding company

The Manager is a wholly owned subsidiary of BT Financial Group (NZ) Limited, which is an indirectly wholly owned subsidiary of Westpac Banking Corporation ('WBC'), an Australian company.

WNZL is a related entity because it is considered to control the Funds based on contractual arrangements, and as such, the Funds are consolidated in the financial statements of WNZL which are available, free of charge, at the internet address www.westpac.co.nz. WNZL is responsible for paying a management fee to the Manager.

# Notes to the financial statements

# Note 3. Related entities (continued)

#### Nature of transactions

Current account banking facilities and other financial products are provided by WNZL to the Funds on normal commercial terms. The Funds received interest on deposits with WNZL. The outstanding balance at year end is included in Accrued interest receivable – WNZL. Other receivable from WNZL represents withdrawals at source, held to meet unitholder tax liabilities. All operating expenses, including audit fees, are paid by WNZL and are not charged to the Funds.

Apart from the management units (refer to Note 10), none of the related entities hold units in the Funds.

### Note 4. Financial risk management

The Funds' financial instruments represent interest bearing deposit accounts with WNZL, in New Zealand dollars.

# The Funds' risk management programme

The Funds operate within the governance and risk management frameworks of their controlling entity WNZL, whose risk governance framework is aligned with the ultimate parent entity, WBC. These frameworks support effective and efficient decision-making through established reporting obligations to the WNZL and WBC Board of Directors as well as measures of staff performance. The Funds regard the management of risk to be a fundamental management activity performed at all levels of its business. Supporting this approach is a risk management strategy that supports a holistic approach to risk management and sets out minimum standards for risk management across all risk categories ('Risk Management Strategy').

#### Categories of financial risk

The Funds' activities may expose them to a variety of financial risks: credit risk, interest rate risk and liquidity risk.

#### a. Credit risk

Credit risk is the risk of financial loss resulting from the failure of counterparties to fully honour the terms and conditions of a contract with the Funds.

The Funds measure credit risk and any expected credit losses using probability of default, exposure at default and loss given default taking into consideration both historical analysis and forward looking-looking. The Manager considers the Funds' financial assets at amortised cost to have a probability of default close to zero as they are short term in nature (investments are either callable on demand or the Funds have the ability to withdraw the underlying investments upon unit holder redemption) and any counterparties have a strong capacity to meet their contractual obligations in the near term.

The following policies and procedures are in place to mitigate the Funds' exposure to credit risk:

• The Funds are subject to WNZL's and ultimately WBC's Risk Management strategy. This strategy defines what constitutes credit risk for the Funds and provides the Funds with a framework for managing credit risk. There have been no changes to the strategy from the previous financial year. WNZL's Board Audit Committee and Board Risk and Compliance Committee are responsible for monitoring risk management performance and controls for WNZL. In addition, the adequacy and effectiveness of the overall risk management framework and controls is monitored, evaluated and opined on by an independent audit function; and

# Notes to the financial statements

# Note 4. Financial risk management (continued)

• The Funds' main exposure to risk arises as a consequence of the Funds' banking and deposit activities with WNZL. The maximum credit risk is considered to be the carrying value of the cash and cash equivalents, investments and other receivables. The Manager considers the credit risk to be mitigated by WNZL's external credit ratings, as shown below.

#### (i) External Credit Rating

The Funds are considered to be controlled entities of WNZL. WNZL has the following credit ratings with respect to its long term senior unsecured obligations, including obligations payable in New Zealand, in New Zealand dollars, as at 31 March 2020. These credit ratings are given without any qualifications:

	Current Credit	Rating
Rating Agency	Rating	Outlook
Fitch Ratings <sup>1</sup>	AA-	Negative
Moody's Investors Service	A1	Stable
S&P Global Ratings	AA-	Negative

On 7th of April 2020, Fitch ratings was changed from AA- to A+.

A credit rating is not a recommendation to buy, sell or hold securities of WNZL. Such ratings are subject to revision, qualification, suspension or withdrawal at any time by the assigning rating agency. Investors in WNZL's securities are cautioned to evaluate each rating independently of any other rating.

#### (ii) Concentration of credit exposures

					WESTPAC	NOTICE	
	WESTPAC TER	MPIEFUND	WESTPAC CAS	H PIE FUND	SAVER PIE FUND		
	31 March 2020	31 March 2019	31 March 2020	31 March 2019	31 March 2020	31 March 2019	
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	
On-balance sheet credit exposures consist of:							
Cash and cash equivalents	112,730	122,743	704,104	732,953	660,253	545,246	
Investments	1,911,794	2,081,734		-	-	-	
Receivables due from related entities	4,696	6,640	136	287	210	285	
Total credit exposures	2,029,220	2,211,117	704,240	733,240	660,463	545,531	

All credit exposures are to WNZL, hence the New Zealand financial services industry and economic sector.

#### b. Interest rate risk

Interest rate risk is the risk which arises from the effects of fluctuations in the market interest rate on net assets attributable to unit holders.

#### **Term PIE Fund**

As the Term PIE Fund's deposit with WNZL is held at various maturities and various fixed interest rates, no sensitivity analysis is provided as reasonably possible changes in the market interest rate have no material impact on the statement of comprehensive income or the statement of changes in net assets attributable to unit holders.

The following tables present the interest rate repricing profile of the Term PIE Fund's assets:

# Notes to the financial statements

#### Note 4. Financial risk management (continued)

#### Cash PIE Fund and Notice Saver PIE Fund

No interest rate sensitivity analysis is provided for the Cash PIE Fund or Notice Saver PIE Fund as interest rates are effectively matched between the deposits the Cash PIE Fund or Notice Saver PIE Fund hold with WNZL and the investments the unit holders hold in the Cash PIE Fund or Notice Saver PIE Fund. No interest rate repricing profile is provided as the deposits with WNZL have no contractual maturities and no fixed rates. As such, the deposits may reprice when market interest rates change.

#### Liquidity risk

Liquidity risk is the risk that the Funds will be unable to fund assets and meet obligations as they come due.

Liquidity management is designed to ensure the Funds have the ability to generate sufficient cash in a timely manner to meet their financial commitments and normal levels of redemptions. The Funds are able to liquidate parts of the investment with WNZL in order to meet redemption

There have been no changes to the Funds' management of their liquidity risk from the previous financial period.

In accordance with the Trust Deed, the Manager may decide, at its sole discretion, to suspend withdrawals from the Funds if it determines that it is in the interest of the unit holders to do so.

#### **Term PIE Fund**

The Term PIE Fund is able to manage its liquidity requirements as the underlying deposits in WNZL are matched with the same contractual terms and maturity periods as the Term PIE Fund's units. In the event the unit holders redeem their units in the Term PIE Fund, the Term PIE Fund also has the ability to withdraw its underlying investments with WNZL.

The units within the Cash PIE Fund have no contractual maturities and hence are redeemable on demand by unit holders. The Cash PIE Fund's underlying investments in WNZL are also callable on demand.

The units within the Notice Saver PIE Fund have no contractual maturities and are also redeemable on demand by unit holders, subject to the minimum notice period of 32 days. The Notice Saver PIE Fund's underlying cash investments in WNZL are also callable on demand, subject to the

The table below presents the maturity analysis on the Fund's financial liabilities based on the period remaining from the balance date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows and will therefore not necessarily agree to the carrying values on the balance sheet.

### 31 March 2020

	On demand \$'000	Up to 3 months \$'000	Within 6 months \$'000	Between 6-12 months \$'000	Over 12 months \$'000	Total \$'000	liabilities at carrying value \$'000

### Note 5. Fair value of financial instruments

#### Accounting policy

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

On initial recognition, the transaction price generally represents the fair value of the financial instrument unless there is observable information from an active market to the contrary. Where unobservable information is used, the difference between the transaction price and the fair value (day one profit or loss) is only recognised in the income statement when the inputs become observable, or over the life of the instrument.

# Notes to the financial statements

#### Note 5. Fair value of financial instruments (continued)

#### Financial instruments not measured at fair value

There are no financial instruments subsequently measured at fair value. For financial instruments not carried at fair value on a recurring basis on the balance sheet, including amounts due from related entities, fair value has been derived as follows:

Instrument	Valuation technique			
Net assets attributable to unit holders	The Funds routinely redeem and issue units at the amount equal to the proportionate share of net assets of the Funds at the time of redemption, calculated on a basis consistent with that used in these financial statements. Accordingly, the carrying amount of net assets attributable to unit holders approximates the fair value.			
Investments	The carrying amount of the Funds' investments, i.e. fixed term deposits with WNZL, are estimated by reference to the current interest rates at which similar investments would be offered for a similar remaining maturity. The carrying amount approximates the fair value.			
All other financial assets and financial liabilities	For all other financial assets and financial liabilities, the carrying value approximates the fair value. These items are either short-term in nature or reprice frequently and are of a high credit rating.			

#### Note 6. Auditor's remuneration

Auditor's remuneration for the year has not been provided for and will be paid by WNZL. This expense will not be charged to the Funds.

#### Note 7. Notes to the Statements of cash flows

Reconciliation of net cash provided by operating activities to change in net assets attributable to unit holders for the year

					WESTPAC	NOTICE
	WESTPAC TERM PIE FUND		WESTPAC CASH PIE FUND		SAVER PIE FUND	
	Year Ended	Year Ended	Year Ended	Year Ended	Year Ended	YearEnded
	31 March 2020	31 March 2019	31 March 2020	31 March 2019	31 March 2020	31 March 2019
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Reconciliation of net cash provided by operating acitivities to change in net assets attributable to unit holders						
Interest expense - distribution to unit holders	65,830	69,720	8,785	13,715	13,443	12.238
Net (increase) / decrease in investments	169,940	(389,103)		-		· -
Net cash flows (used in) / provided by operating activities	235,770	(319,383)	8,785	13,715	13,443	12,238

### Note 8. Capital management

There are no specific capital requirements imposed on the Funds other than ensuring unit holders' funds are sufficient to meet all present and future obligations.

The capital of the Funds is represented by the net assets attributable to unit holders. The amount of net assets attributable to unit holders can fluctuate on a frequent basis, as the funds are subject to applications and withdrawals at the discretion of unit holders as well as changes from the performance of the Funds. The objective when managing capital is to safeguard the Funds' ability to continue as a going concern in order to provide returns for unit holders.

# Note 9. Commitments and contingencies

As at 31 March 2020, the Funds had no commitments or contingencies that were not otherwise disclosed in these financial statements (31 March 2019: nil).

### Note 10. Equity units issued

In accordance with the Trust Deed, the Manager paid \$100 to the Trustee by way of subscription for 100 management units in each Fund. Such units will be redeemable for cash after all other units in the relevant Fund have been redeemed. These units are fully paid and issued. No voting rights are attached to these units.

# Independent auditor's report

To the unit holders of: the Westpac Term PIE Fund the Westpac Cash PIE Fund the Westpac Notice Saver PIE Fund (collectively referred to as the Funds)

We have audited the Funds' financial statements which comprise:

- the balance sheets as at 31 March 2020;
- the statements of comprehensive income for the year then ended;
- the statements of changes in net assets attributable to unit holders for the year then ended;
- the statements of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies.

# Our opinion

In our opinion, the accompanying financial statements of the Funds present fairly, in all material respects, the financial position of the Funds as at 31 March 2020, their financial performance and their cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

# Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)) and International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Funds in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners (PES 1) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our firm carries out other services for the Funds, BT Funds Management (NZ) Limited (the "Manager") and related entities of the Manager in the areas of registry compliance assurance, controls assurance and agreed upon procedures on the Manager's net tangible assets calculation. In addition, certain partners and employees of our firm may deal with the Funds on normal terms within the ordinary course of the trading activities of the Funds. These matters have not impaired our independence as auditor of the Funds.

# Responsibilities of the Manager for the financial statements

The Manager is responsible, on behalf of the Funds, for the preparation and fair presentation of the financial statements in accordance with NZ IFRS and IFRS, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to liquidate the Funds or to cease operations, or has no realistic alternative but to do so.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (NZ) and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located at the External Reporting Board's website at:

https://www.xrb.govt.nz/standards-for-assurance-practitioners/auditors-responsibilities/audit-report-8/

This description forms part of our auditor's report.

# Who we report to

This report is made solely to the Funds' unit holders, as a body. Our audit work has been undertaken so that we might state those matters which we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Funds and the Funds' unit holders, as a body, for our audit work, for this report or for the opinions we have formed.

The engagement partner on the audit resulting in this independent auditor's report is Philip Taylor.
